IN TALKS WITH FOUR LARGE COMPANIES FOR INDIA INVESTMENTS

100X.VC looks to aid Japanese, HK firms' early-stage funding

S SHANTHI
Bengaluru, July 10

INVESTMENT FIRM 100X.VC is in talks with four large firms from Japan and Hong Kong looking to invest in early-stage startups in India.

This will be part of its corporate venture capital (CVC) initiative launched in August 2021, under which it partners with large domestic and international firms keen on early-stage investments, and helps them make the right investment decisions.

Panasonic and Pidilite Ventures are two such corporations that have so far tied up with 100X.VC. Notably, Pidilite has to date invested around \$9 million in around six startups through this partnership.

"More and more corporates today want to get involved in early-stage investment ecosystem. Many Singapore and

MANY GLOBAL FIRMS WANT TO INVEST. BUT THEY FIND IT TOUGH TO SET UP A TEAM. THIS IS WHERE WE HELP THEM

Japanese corporate funds also want to invest. However, they find it very difficult to set up a whole team here and evaluate the deals. This is where we help

■ Tech firms like Intel, Google, Microsoft & Meta have been investing in startups via (corporate venture capital) CVC funds

■ The CVC programme helps corporates raise their profits by striking right deals with startups and helps them identify acquisition targets

A CVC fund is a vehicle used by large companies to invest in new-age companies. Globally, many leading tech companies such as Intel, Google, Microsoft, and Meta have been investing in startups through their CVC funds. In India, too, corporates such as Infosys, Wipro and late-stage startups such as Zerodha and Dream11 have been actively investing in startups.

According to 100X.VC, the top 100 corporations in India have kept aside around ₹10-100 crore of capital to invest in startups.

However, besides a few, most corporates have been investing in growth or late-stage startups only as they come with less risks.

This is where 100X.VC bridges the gap, by helping these corporates find the right early-stage investments. 100X.VC has so far invested in over 150 early-

stage startups. Some of its portfolio companies include Data Sutram, Dezy and Beyond Snacks. Last month, the Mumbai-based VC firm, founded in 2019, invested \$2.7 million in 17 startups as part of its 11th cohort.

The firm, however, doesn't co-invest with corporates that it partners with under its CVC initiative. Additionally, the firm's CVC vertical and the VC verticals function independently. The CVC programme mainly helps corporates increase their profits by striking the right deals with startups and helps them identify acquisition targets.

"We also want to ensure that there is no conflict of interest. We don't take up assignments from companies in similar industries, which can turn out to be, at some level, some conflict of interest," he added.

Zepto says system glitch caused price disparities

FACING BACKLASH AFTER coriander was listed at an exorbitant price of ₹131 for 100 grams on its platform, quick commerce giant Zepto said the system glitch had "caused significant pricing disparities" and assured that the issue has been resolved.

The issue came to light when Entracker reporter Harsh Upadhyay highlighted in a post on X that coriander was priced significantly higher on Zepto compared to other platforms.

Zepto issued a statement acknowledging the technical hiccup. "Yesterday (Tuesday), we experienced a system glitch that led to some wild pricing disparities across our platform," it said. "While some items were priced three times lower, others saw a substantial hike."

It assured that the issue has been resolved. Zepto took the opportunity to explain its pricing strategy, emphasising its focus on quality over everything else. —**FE BUREAU**

Proposed split of Vedanta entities on track: Agarwal

PRESS TRUST OF INDIA
New Delhi, July 10

VEDANTA CHAIRMAN ANIL Agarwal on Wednesday said that the company is going ahead with the proposed demerger of its businesses that will lead to formation of six firms and unlocking of massive value.

The company has received approvals from the majority of its creditors for a proposed demerger of businesses, marking an important step in the company's plan to split into six independent listed companies.

Addressing shareholders during the 59th Annual General Meeting, the Chairman said, "We are going ahead with the demerger of our businesses, which will lead to the creation of six strong companies, each a Vedanta in its own right. This will unlock massive value." Each demerged entity, he said, will plan its own course but follow Vedanta's core values, its enterprising spirit and global leadership.

"As we stand on the brink of an amazing transformation, our josh is high," Agarwal said, adding, "the demerger will lend speed to our journey." Each entity will have more independence with regard to capital

allocation and their growth strategies, the chairman said and added that investors will have the freedom to invest in the industries of their choice, broadening the overall investor base for Vedanta assets. "For every one share of Vedanta Ltd that shareholders currently own, they will additionally receive one share of each of the five newly listed firms," he said.

LG to team up with India influencers

PRIYANSH VERMA
Seoul, July 10

LG IS CONSIDERING collaborating with Indian digital influencers in the future for sharing "optimistic content" on its online platforms for social media users, company executives told reporters here on Wednesday.

The collaboration is expected to help LG reach out to more social media users in India, as it would help them proactively engage with "positive and inspiring" content on their feeds, said an executive with LG's Brand Management Division. In May 2024, LG had launched a global campaign called "Optimism your feed" for the same purpose. The executive said that LG is a "passionate supporter of optimism". The firm aims to create positive changes in people's lives by being intentional with our positive activities both online and in real world. So far, LG has uploaded over 20 short-videos on TikTok, YouTube and other platforms, in collaboration with several "global influencers" to share optimistic content. The company at present has collaborated with influencers, such as Tina Choi, Victoria Browne, and Josh Harmon among others.

Centralised exchange by Aug: Cifdaq

PADMINI DHURVARAJ
Bengaluru, July 10

CIFDAQ, A NEW-AGE fintech company, has unveiled plans to launch its centralised exchange in August, Sanjay Saxena, CEO and co-founder of the company, told FE. This launch aims to provide a platform for trading top crypto currencies and introduce a suite of other financial products.

"Three years of technological development have laid a strong foundation for us, and now, with the right team and resources, we are ready to roll out our central exchange," Saxena said.

Cifdaq's exchange will initially support trading for the top 20 crypto currencies paired with the Indian Rupee (INR), with plans to expand to include derivatives and options trading. Further, the company plans to launch an android app and the exchange will also be supported on the website.

"Our exchange will feature OTC, Instant, P2P transactions, and we're exploring the addition of options trading in the near future... Nobody in India has offered the options," Saxena said.

Despite India's cautious stance on cryptocurrencies, Cifdaq remains optimistic

THREE YEARS OF TECHNOLOGICAL DEVELOPMENT HAVE LAID A STRONG FOUNDATION FOR US, AND NOW, WITH THE RIGHT TEAM AND RESOURCES, WE ARE READY TO ROLL OUT OUR CENTRAL EXCHANGE

SANJAY SAXENA, CEO AND CO-FOUNDER, CIFDAQ

about its potential in the Indian market. "Cryptocurrency is not banned in India. We are aligning with government regulations and focusing on integrating blockchain technology to support the for-

mal economy," Saxena added. Further, beyond the centralised exchange, Cifdaq plans to introduce a native token with a total supply of 500 million, an MPC (multi-party computation) wallet with

enhanced security features, and other blockchain-based services by the end of 2025. "Our aim is to create a comprehensive blockchain ecosystem, providing everything from our own layer 1 blockchain to a suite of financial services," Saxena said.

Fundraising plans

Cifdaq is currently entering a fundraising phase, targeting a total of \$25 million in the next 12-15 months to expand its team and marketing efforts.

"This funding will also support the development of our upcoming products, including a decentralised exchange, custodian services, NFTs, and a gaming platform," said Saxena.

Telecom PLI: Equipment sales cross ₹50,000 crore in 3 years

THE TELECOM EQUIPMENT sales has crossed the ₹50,000 mark, with exports totalling around ₹10,500 crore in three years of the production-linked incentive (PLI) scheme, the department of telecommunications (DoT) has said in a statement.

The same has led to creation of over 17,800 direct jobs, the statement added. The same assumes significance as through PLI in the

telecom sector, the government aims to promote local production and reduce import dependency.

The government said the sales of telecom & networking products by PLI beneficiary companies in FY24 has increased by 370% compared to the base year of FY20. "By encouraging local production, the PLI scheme has significantly reduced the country's reliance on

imported telecom equipment, resulting in import substitution of 60% and India has become almost self-reliant in Antennae, GPON (Gigabit Passive Optical Network) & CPE (Customer Premises Equipment)," DoT said.

Telecom equipment includes items like radios, routers, and network equipment, among others.
